# MRDCL: The New Release - What's available in the new release and what's coming next.

MRDC Software's new release of MRDCL expands the scope of our popular scripted tabulation software.

---

**In a webinar on Tuesday 1st December, we will be showing you several new features in MRDCL:**

The new import tools from Triple-S, SPSS

Colour-coded editor

Working with data in CSV format

Improved Excel outputs

New file management system

Automated runs of tables

Hugely increased limits – rows/columns in tables, size of variables and more...
