

WHAT CAN I DO WITH RESOLVE PREMIUM?

PUT SURVEY DATA AT ANYONE'S FINGERTIPS

Resolve allows research executives and clients to explore survey data by producing tables and charts. Complex or repetitive tables can be produced quickly without expert knowledge

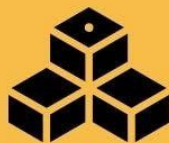

PRODUCE TABLES AND CHARTS FROM ANY SURVEY

Resolve allows researchers and clients to produce tables and charts from quantitative survey data. Build the tables you need so that you can generate charts that are ready to go straight into your reports, saving you time and effort and reducing the risk of errors.

BUILD YOUR OWN IN-DEPTH ANALYSES

You can apply filters, including multiple filters, to tables, so that you can look your survey data in greater depth.

BUILD VARIABLES

Resolve's powerful tools allow you to build variables so that you can look at data in more detail.

PROFILE YOUR DATA

Produce Resolve's Profile report, profile your data from any tables and show the top and bottom respondent groups as well as using Excel output in your reports. Whilst also comparing results for different profiles.

AUTOMATE REPORTS

Resolve takes the effort out of generating reports in PowerPoint and Excel by linking your data to the reports you need to generate.
